TAKORADI GAS LTD

TGL IS A LIMITED LIABILITY COMPANY INCORPERATED IN 1992
HEAD OFFICE – TAKORADI
DEPOTS: KUMASI- KENYASI- AKYEM-TEMA-ACCRA

Takoradi Gas Ltd:

Takoradi Gas Limited is a leading industrial gas manufacturing company located in Takoradi, a key oil producing city in Ghana. Since the founding of Takoradi Gas 1992, the team has dedicated all their time and effort to producing the best quality products for the variety of industries they serve; providing significant support for Ghana's industrial base and development.

Located in the Effia industrial area within Takoradi, the company continuously strives to bring their products closer to their clients, aiming to provide customer service that is unmatched in their industry, making them a major player in the Ghanaian industrial sector.

The objective of the company since 2008 is to become a one-stop-shop for our customers. In order to achieve this, the Takoradi team has expanded their business operations to include the exclusive distributorships to import Hilco welding consumables from Holland, Cigweld & Victor welding accessories from Australia & US and Weld-Ro welding Accessories from Malaysia.

TGL ONE STOP SHOP offers

Industrial Gases (Oxygen, Acetylene, Nitrogen, Argon, Mix gases, Co2, Helium, LPG etc)

Quality imported Refrigerant Gases (Freon) European brands/ TGL brand

Welding Consumables (all types of Electrodes) from HILCO, Holland (Authorized distributor in Ghana)

Welding & Cutting Accessories from Cigweld Australia, Victor Technologies, US.

TGL is the Authorized Distributor for Cigweld (Australia) and Victor Technologies (US) for all welding & cutting accessories. Takoradi Gas Ltd is the authorized distributor for following product in Ghana and we only deal with genuine products.

- Cigweld /Victor/Tweco /ESSAB products from Cigweld, Australia/VICTOR USA
- Hilco brand welding consumables(electrodes/cutting & grinding discs) from Holland (EU)
- Weldro brand welding & cutting products from Malaysia
- Refrigerant Gases from GAZECHIM France and TGL own brand

In order to differentiate ourselves from similar players in the mining and industrial industries, Takoradi Gas Ltd tries to provide the best possible products and services to their customers. One of the most important steps that the company took was to move their operations closer to mining locations in order to provide constant support and service to the customer. Other important factors contributing to the success of Takoradi Gas is the consistency of the company's delivery schedules and our unrivalled customer service.

Dedicated to Customer Satisfaction

Whether it's to provide 24 hour service to our customer 7 days a week, or consistent support, the customers understand that the company is far ahead in terms of service and care for their clients. The management team keeps close contact with their clients, responding to concerns and requests immediately ensuring that all parties are satisfied with the development of their project. If a client isn't satisfied, the team will work with them until the issues are resolved. This is the key to long-standing relationships. The team at Takoradi is trained to be consistent and in tune with their clients, meeting their needs in terms of service, delivery and reliability. This has kept the company growing both internally and externally, leaving them with both happy customers and employees.

A Professional Working Environment

The staff of Takoradi Gas are protected by their employers who provide them with all the benefits dutiful employees are expected to receive. This includes, medical, holiday and safety benefits which are updated every two years as per the labour laws of Ghana. Training is also an integral part of the company's values; Takoradi provides constant on-going training, both in house and outside. The managing team believes that acquiring new knowledge, training methods and exposure is an important development tool for their workers. This allows the team to bring new ideas to the company, helping improve the operations on frequent basis.

Advancements in Technology

Having the most current tools is important to the Takoradi, who invest heavily not only in their employees, but in their machinery. New Oxygen plant and CO2 refilling plant, which are state-of-the-art, more energy efficient and have a higher capacity as compared to their older facilities. This sophisticated plant was built to meet the growing need for more Oxygen as well as CO2 related projects within Ghana, and Takoradi Gas hopes that this facility will show their clients their commitment to adapting and meeting the needs of the market. In terms of environmentally friendly technology, there is a growing awareness in the industry and in the country of Ghana. Takoradi Gas works with the EPA very closely and comply with all EPA standards. Currently, the new facilities built are all energy efficient, and the aim is to continue researching in order to find more ways to be green.

Who we are.....

- TGL is a ONE-STOP SHOP for all welding, cutting and heating supplies
- Leader in the Industry
- Safety and Quality products is our hallmark
- We strive to be the first choice of customers

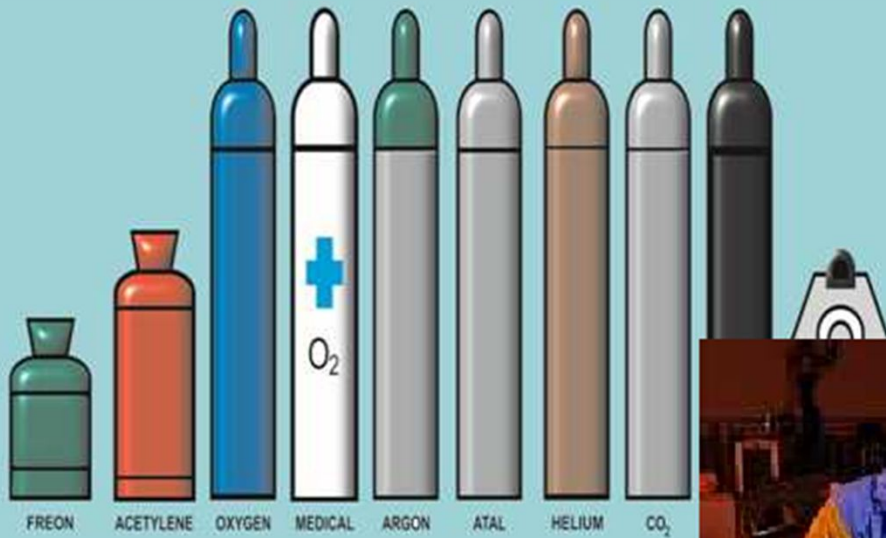

The advertisement features a row of logos at the top: TGL (a purple diamond with 'TGL' inside), Inileco WELDING CONSUMABLES (green stylized text), VICTOR TECHNOLOGIES (white text on a green background), CIGWELD Professional (blue text with a star), Tweco (yellow cursive text), and STOODY (red text). Below the logos are images of various products: a row of gas cylinders (Freon, Acetylene, Oxygen, Medical, Argon, Atal, Helium, CO₂, Nitrogen, Liquid Nitrogen), three refrigerant gas cylinders (22, R134a, R404A), a stack of welding masks, a blue toolbox labeled 'COMET SHIPPER SYSTEM', two sets of welding regulators, a red and black pressure gauge, and a blue coiled hose. At the bottom, there is a list of product categories with red circular bullet points: REFRIGERANT GASES, INDUSTRIAL GASES, and WELDING ACCESSORIES. To the right of this list is the company name 'TAKORADI GAS LIMITED' in large blue letters, and a hotline number 'Hotline- 0244-330 594' and another number '0244 354 394' in red.
